

OAKLAND UNIFIED SCHOOL DISTRICT

Board Policy

BP 3514

Business and Noninstructional Operations

Environmental Safety

The Governing Board recognizes its obligation to provide a safe and healthy environment at school facilities for students, staff and community members. The Board shall identify and address potential risks to health and the environment and shall ensure that environmental resources are used in a responsible manner.

(cf. 3513.3 - Tobacco-Free Schools)

(cf. 3514.1 - Hazardous Substances)

(cf. 3516 - Emergencies and Disaster Preparedness Plan)

(cf. 4119.42/4219.42/4319.42 - Exposure Control Plan for Bloodborne Pathogens)

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)

(cf. 4157/4257/4357 - Employee Safety)

(cf. 5142 - Safety)

(cf. 6161.3 - Toxic Art Supplies)

(cf. 7111 - Evaluating Existing Buildings)

(cf. 7150 - Site Selection and Development)

The Superintendent or Deputy Superintendent of Business Services shall establish regulations to prevent and/or reduce environmental hazards in accordance with law and state guidelines. Strategies shall include but not necessarily be limited to:

1. Considering air quality in the setting and architectural design of new or remodeled facilities and in the selection of building materials and furnishings, and taking steps to reduce indoor air contaminants in maintenance operations
2. Ensuring the use of effective least toxic pest management practices at all district schools
(cf. 3514.2 - Integrated Pest Management)

Note: Item #3 below addresses the need to minimize lead exposure and recognizes that lead exposure may be harmful to young children. Pursuant to Education Code 32240-32245, the Lead-Safe Schools Protection Act, the state Department of Health Services conducted a survey to estimate the extent and nature of lead hazards in California elementary schools and child care facilities. In April 1998, the Department of Health Services issued its report to the legislature with recommendations on reducing lead hazards related to the maintenance and renovation of schools. These measures are set forth in AR 3514.

3. Minimizing the exposure to lead in paint, soil or drinking water, especially in areas accessible to very young children

4. Inspecting and testing facilities for asbestos-containing materials and protecting persons during encapsulation and removal of any asbestos

The Superintendent or Deputy Superintendent of Business Services shall notify parents/guardians, as appropriate, if an environmental hazard is discovered at a school site. The notification shall detail the district's efforts to remedy the hazard.
